

# RECORDING A 'DING'

(not scoring at a hole)

## on Ireland Clubs

If your score entry system displays an expected score for a hole and you are presented with '+' and '-' buttons, you should select the '-' button until you reach **NR**.

### DO NOT SELECT NS

This only applies to the system that presents you with '+' and '-' buttons; it does not apply to the system whereby you enter a number, in which case you enter a 0 if you do not score at a hole.
